

AMENDMENT 1

Quil Ceda Village

EHR – RPMS Server Replacement

PROJECT: QCV-TDS-09-028-001

Date: March 20, 2009

This amendment, Amendment 1, is issued as a clarification for to the RFB for project QCV-TDS-09-028-001, EHR – RPMS Server Replacement. When responding to this RFB, bidders must indicate that their bid is inclusive of the changes outlined herein. It is the responsibility of the bidder to reconcile this amendment with the original RFB document.

EQUIPMENT

In Section 4.1.4 required memory is updated to the following:

4.1.4	Memory: 4GB 667MHz (4x1GB), Single Ranked DIMMs	4G4D6D	
-------	---	--------	--

Section 4.1.24 is stricken from the document. There is no requirement to specify GSA hardware. The most cost effective hardware/equipment that meets the stated requirements should be proposed.

Section 4.1.28 is added to include rails in the bid. Section 4.1.28 now reads:

4.1.28	Chassis Configuration: Rack Chassis w/Sliding Rapid/Versa Rails and Cable Management Arm, Universal	RPVERSA	
--------	---	---------	--
